Register for our FREE early learning series: Supporting Young Children and Families in a Pandemic

Let's shine a light on the important work of early learning providers during an extraordinary time in our world. We will discuss how to identify red flags, build resilience, and seek support despite the limitations this pandemic has created. Concrete resources and activities will be provided during these interactive virtual trainings.

March 9, 2021, 6-7:30

Building Resilience in Young Children

Resilience describes the handling of stress, trauma, and adversity. We all experience varying levels of challenges in our lives and the way we bounce back from them demonstrates how resilient we can be. We will explore why resilience is important, activities that promote resilience, and how caregivers can build their own capacity for resilience during difficult times.
