Sedalia Elementary School is pleased to inform you that we have partnered with The Backpack Society to provide meals for our students and their families. Backpack Society is a non-profit organization that offers free meals to families in need. The family program provides food on weekends, holidays and school vacations for the whole family. If you are interested and would like to participate in this program, please complete the interest survey so that we can begin to get an idea of how many families will participate in this program.

## Register for our FREE early learning series: Supporting Young Children and Families in a Pandemic

Let's shine a light on the important work of early learning providers during an extraordinary time in our world. We will discuss how to identify red flags, build resilience, and seek support despite the limitations this pandemic has created. Concrete resources and activities will be provided during these interactive virtual trainings.

## March 9, 2021, 6-7:30 Building Resilience in Young Children

Resilience describes the handling of stress, trauma, and adversity. We all experience varying levels of challenges in our lives and the way we bounce back from them demonstrates how resilient we can be. We will explore why resilience is important, activities that promote resilience, and how caregivers can build their own capacity for resilience during difficult times.
